

Landing / Prompt Workspace

- FIND MATCHES button is disabled until input field has correct text
- Past intents drawer: tap label to expand / tap again to collapse
- Tag pill: tap × to remove
- Input field: cursor visible on focus
- Error state: triggered if input contains invalid characters
- FIND MATCHES button becomes active once input is valid

Processing State

- GPS permission modal appears after step 2 completes
- If GPS denied: city selection fallback appears
- If GPS allowed: modal dismisses, step 3 continues
- XAI summary visible

Match Results

- Cards ranked by compatibility %
- Tap card → expands to Match Card detail
- Back → returns to Match Results

No Match Found

- Invite your friends: opens share sheet (copy link)
- Dismiss × on Help us grow card → card closes
- "See who is waiting" list: able to connect, no compatibility percentage

Chat

- Tribe Suggests card: dismiss × removes card for this session
- MEET button → navigates to Meet Hub
- Keyboard opens on input field focus

Open Menu

- Back → returns to previous screen
- Logout → clears session, returns to Landing
